

Bradken

Mayfield West, NSW

Client: Bradken Australia

Budget: Undisclosed

Role: Principal Design Consultant

Type: Multi-Function Facility

Completed: 2013

EJE Architecture was engaged by Bradken to assist with the design of a new multi function facility located at Mayfield West. Bradken is Newcastle's largest publicly listed company; their proposed new facility involves the design, development and testing of mining, rail and industrial equipment. Previously located at two different sites, Bradken wanted to centralise their services with a new facility in the Steel River Industrial area.
